UNTIL  
March 31<sup>st</sup> 2012

### ER. : ERASE & RAISE KARIN HERZOG

Hyaluronic acid is essential to cells health. This acid transports nutrients, maintains blood circulation and eliminates impurities. The main function of this compound is to help cells retain water so they stay well hydrated and healthy. Hyaluronic acid fills and lubricates skin to help maintain resistance and elasticity. Stimulate your cell activity for a fresh, healthy and youthful looking skin.

### VITA-A-KOMBI 1% KARIN HERZOG

Vita-A-Kombi can be easily termed 'life' for the skin, providing in each application the necessary energy in the form of Oxygen and the essential raw materials to create new healthy balanced skin at an accelerated rate. Regular and continual use will optimize skin tone and appearance, closed pores, a clear radiant and glowing complexion, fine lines will fade and wrinkles will be smoothed.

### VITAMIN H CREAM KARIN HERZOG

A unique formula rich in rare but wonderfully therapeutic natural vitamins, minerals and proteins that are simply not found naturally in abundance in the skin as we age. The ideal companion to the ever popular 'Vita-A-Kombi', this cream provides additional much needed essential ingredients that the skin recognises and quickly utilises. The result? Soft, fresh skin with fine lines visibly reduced and a luminous glow and clarity to the complexion overall
